One of the most helpful books on nerve weakness ever issued is that entitled "Nerve Waste," by Dr. Sawyer, of San Francisco, now in its fifth thousand. This work of an experienced and reputable physician is in agreeable contrast to the vast sum of false teaching which prevails on this interesting subject. It abounds in carefully considered and practical advice, and has the two great merits of wisdom and sincerity.

It is indorsed by both the religious and secular press. The Chicago Advance says: "A perusal of the book and the application of its principles will put health, hope and heart into thousands of lives that are now suffering through nerve impairment."

The book is \$1, by mail, postpaid. One of the most interesting chapters—chapter xx, on nervines and nerve "NERVE WASTE."

—chapter xx, on nervines and nerve tonics—has been printed separately as a sample chapter, and will be sent to any address for stamp by the pub-lishers, The Pacific Pub. Co., Box 2658. San Francisco.

A Miraculous Feat.

"It seemed that nothing short of a miracle could save my little daughter from an untimely death," says City Marshall A. H. Malcolm, of Cherokee, Kan. When two years old she was taken with stomach and bowe trouble and despite the efforts of the best physicians we could procure, she grew gradually worse and was pronounced in-

curable. A friend advised Miles Nervine

and after giving it a few days she began to improve and final-ly fully recovered. She is now past five years of age and the very picture of health."
